## BOARDWALKUPS

A funky and fun cluster of walkup windows offers an array of quick bites at the beach.

Whether it's because of pets, kids or your significant other's need to remain on the beach soaking up the sun's rays, Southern California tourists aren't always inclined to take time from the day sitting in a traditional restaurant waiting for their food to arrive.

Enter the walk-up window eateries that are prevalent at beaches like Venice.

### THE WEE CHIPPY

Established in 2013, The Wee Chippy specializes in Fish and Chips with a twist. Not only does the restaurant offer award-winning fresh, hand-cut fries with most of its meal options, it also possesses gluten-free and vegan versions of the popular English meal. No matter what combo you settle on though, everybody gets to select a “chippy salt flavoring” and “chippy condiment” to pair with the meal. Staff suggested trying the garlic salt and chipotle mayo tarter sauce options but there’s never a wrong choice at The Wee Chippy.
